Variable Description and Frequencies

Note: Frequencies displayed for the variables are not weighted. They are purely descriptive and may not be representative of the study population. Please review any sampling or weighting information available with the study.

Summary statistics (minimum, maximum, mean, median, and standard deviation) may not be available for every variable in the codebook. Conversely, a listing of frequencies in table format may not be present for every variable in the codebook either. However, all variables in the dataset are present and display sufficient information about each variable. These decisions are made intentionally and are at the discretion of the archive producing this codebook.

A2DA6: Did you/any one in your household donate money or goods to any organizations?

The next two questions are about donating money and goods since (this time/we spoke) yesterday. First I will ask about donating to ORGANIZATIONS. Later I will ask about donating to INDIVIDUALS - including family members who do not live with you, friends, or strangers. - Not counting automatic payroll deductions, did you or anyone in your household donate money or goods to any ORGANIZATIONS since yesterday?
